**High  
Performance,  
Reliable  
Resource**

Laminated Wood Project Panels crafted from slow grown high-grade wood fiber. These finger-jointed and edge-glued table panels offer unparalleled stability and durability perfect for cabinet making, furniture construction, and other woodworking projects.

Made from sustainable and renewable resources, wood stores carbon, helping reduce the overall carbon footprint of your project.

Elevate your woodworking projects with our exceptional Laminated Wood Project Panels.

# Laminated Wood Project Panels

## Durable

- Available in a number of durable species; pine, spruce, acacia and teak.
- Laminated together under high pressure, providing superior strength
- Kiln Dried Heat Treated (KDHT) to remove excess moisture from the wood
- Finger-jointed and edge-glued to align the grain of the wood, helping improve stability and strength

## Functional

- Panels can be used either outside or inside the house
- Excellent with stain or paint to meet any need and requirement
- Great for hobbyists, DIYers, shelving, furniture, and woodworking

## Exceptional Quality

- We can supply two types of grades for your projects:

OI Grade A

Minimal knots

OI Grade B

Contains few defects

\*All measurements are based on the manufacturer's specifications at the time of production. Olympic Industries is not the manufacturer and disclaims any and all damages, liability, and losses arising from or related to the use of the product or reliance on the measurements set forth in this FAQ. Olympic provides no warranties express or implied with regard to the use or specifications of the product (and disclaims the implied warranties of fitness for a particular use and merchantability).
